Everyone has a role to play, here's how you can help:

This is a consultation for all members on Agenda for Change. A huge turnout in your workplace will be vital to making sure the view of RCN members is clear and give the nursing more power going forward.

You have a voice: You're here, the more you speak up, the more we can hear. You need a voice to be heard. The more you speak up, the more we can hear. You need a voice to be heard.

Now we need your voice: You are the experts in your own practice; we need your views, your experiences and your ideas to help us shape the future. If you speak up, we can make the changes you need.

Getting members to take part in the consultation is crucial and that's where you come in. A high turnout will give your fellow members who lead the RCN the clear signal they need on the membership's views.

The more members who are active like you, the stronger the voice of nursing. Once a member has taken part in the consultation, it's crucial you explore with them if they could join you in getting active and persuading others to take part too.
