Children and Young People's Staying Healthy Forum

We are the RCN's Children and Young People Staying Healthy Forum. This includes areas of work delivered by professionals/services such as- CAMHS, Health Visiting, School Nursing, Look After Children and Safeguarding. We regularly engage and represent the RCN at national meetings to ensure the Nursing voice helps to influence policy and practice changes. By bringing Children and Young People's Nurses who work in these services together with National stakeholders, we have developed guidelines that are used in everyday practice. We are also a place for those working or interested in these areas of work to seek support, network, learn and develop.

when fully recruited to, we have 7 Forum Committee Members including our Chair Gemma Trainor. As committee members we have a wide range of specialist interests and are keen to add to this growing list.

h

Children and Young People's A cute Care Forum

We are the RCN's Children and Young People Acute Care Forum. This includes departments such as- Neonates, PICU, Emergency Department, Paediatric inpatient wards, HDU & Theatres. We regularly engage and represent the RCN at national meetings to ensure the Nursing voice helps to influence policy and practice changes. By bringing Children and Young People's Nurses who work in acute care together with National stakeholders, we have developed guidelines that are used in everyday practice. We are also a place for those working or interested in acute care to seek support, network, learn and develop.

we have 7 Forum Committee Members including our Chair Katie Bagstaff. As committee members we have a wide range of specialist interests and are keen to add to this growing list.
