Annual Report 2022

Welcome

The forum has evolved from a specialist area of nursing informatics to focusing on the wider application and impacts of digital. Those reading this report, and especially to members new and old, are most welcome.

This is an incredibly exciting time for th

place. However, there are two critical indicators that need to be considered by the committee. Firstly, the largest proportion of members indicated that they considered the work by the forum to help nurses develop digital capabilities to be of neutral impact. The second indicator is that the largest proportion of members said they considered the opportunities within the forum to network with others to also be of neutral impact. The committee plans to review these results further at the
