

The screenshot shows the RCN login page. On the left, there's a 'Login' section with fields for 'Your email address' and 'Password'. Below these are links for 'Forgotten your password?' and 'register using your membership number'. A large blue sidebar on the right contains the text 'Join the RCN' and 'Our library resources online are exclusive to members'. It also features a 'Need help with...?' link, a 'CALL' button with the number 0345 337 2368, and a 'TEAM' button. A tooltip with the text 'You need to log in to access our library resources' is displayed over the 'Forgotten your password?' link. An arrow points from the 'register using your membership number' link towards the 'Forgotten your password?' link.

Login

You need to log in to access our library resources

Your email address (or RCN membership number):

Password *

Login using your MyRCN password. If you don't have a password, follow the **links** to '**Forgotten your password**' or '**register using your membership number**'

Carrying out a basic BNI search

The database opens in **basic search**

- Type **keywords** e.g. nutrition AND diabetes into the search box and click on the magnifying glass to **search**.
- use double inverted commas “ ” to search as a phrase, for example “community nursing”

Tips:

- search using keywords rather than typing in a sentence
- think of related words such e.g. elderly or older
- search using acronyms as well as full names e.g. NHS OR National Health Service

Search results

The search results matching the keywords are displayed on the next page with the most recent references appearing first

1

Liu, Changle; Sun, Yachui; Lin, Haili; Zhong, Ruishi; Ruan, Lianzhong; et al. *Nutr Diet Physiol*. 2018; 52:119-...

...the Institute of Nutrition and Food Safety of the Chinese Center for Disease Control and Prevention (NIFSDC) in 2009 was used to define study participants...
...and 5) high FPG (25.0 mmol/L and/or diagnosis of type 2 diabetes) [12].

2

Pineda-Juárez, Juan Antonio; et al. *Nutr Diet Physiol*. 2018; 52:45-53.

...nutr diet physiol. 2018; 52:45-53. Investigate the differences in nutrition status of patients with hypertension, diabetes mellitus, and obese children and adolescents.

Abstract/Details Find a copy Preview

- You can narrow your search further by selecting the various **filters** on the left hand side e.g. full text, peer reviewed, publication date etc.
- **noft** means not full text. BNI searches for keywords in the title field, the abstract and database subject headings. It means that we find only articles focussed on our topic which is what we need. Noft is something that's generated automatically by the database.
